

TOWN OF SYLVA, NORTH CAROLINA

## **Addendum 1: INVITATION FOR BIDS**

**FOR CONSTRUCTION OF BRIDGE PARK GREEN INFRASTRUCTURE IMPROVEMENTS  
October 18, 2023**

- 1. Where are the picnic tables to be stored?**  
*Picnic tables will be stored on a storage lot adjacent to the Town of Sylva Public Works Facility.*
- 2. Where are concrete wheel stops to be stored? Please keep in mind that it is very likely that some existing wheel stops will break when they are removed.**  
*Wheel stops will be stored in the same lot as the picnic tables. Broken wheel stops will be replaced if needed, however caution is urged on the part of the contractor.*
- 3. There is a note regarding removal of an invasive species at the top of the bank. What is the invasive species and how much of it is there?**  
*This was not captured in the survey, but there is Japanese Knotweed, Oriental Bittersweet, and a few small Princess Trees.*
- 4. Is there a design of what is to be included on the Educational Sign?**  
*Please assume educational sign content to be designed by others. Please include cost of stand and installation.*
- 5. Bioretention Overflow pipe to connect to existing stormwater pipe (by others). We are to lay the pipe up to the existing pipe; and connection is to be made by others?**  
*The overflow was a late change, and the note on L3.1 should have been deleted. Pipe outlet location is found and detailed on L4.0.*
- 6. There is not a detail for the overflow pipe. What size is it? At what elevation should it begin to drain water off?**  
*Pipe material, sizing, and inverts are found on L4.0.*
- 7. The bollard detail states "Dumor Steel Bollard, Black or approved equal". There is an additional note that states "4"X6" PT Stained Wood Post, Smooth Finish". Which one is correct?**  
*The bollard is to be Dumor Steel Bollard (Black) or approved equal.*

- 8. Also, the bollard detail states that anchor bolts are to be ½" bolts; but it also states ¾" bolts. Which is correct?**

*¾" is desired.*

- 9. Also, the bid form has some quantities that are cut off (the entire number is not visible).**

*Please see the attached bid form in excel format.*

- 10. Is there a layout for the Entry arch? Showing desired wording and any emblems or other designs you want on the arch?**

*The desired text, rough vertical clearance, and footing dimensions are given on detail 6/L5.3.*

*There is a 10' clearance between footings as drawn in the plans.*

- 11. I'm assuming you do not want it to say "Rotary Gateway; Lakefront Park" with a Rotary Emblem.**

*This is shown as an example. Please note that entry arch shall say "Bridge Park"*

**-END OF BID ADDENDUM 1-**
